        1.4.15. Print ____ -9-
        1.4.16. Program ____ -9-
        1.4.17. ReadExpr ____ -9-
        1.4.18. StringLiteral ____ -10-
2. Spécifications rajoutées ____ -10-
3. Algorithmes et structures de données rajoutés ____ -10-

1. Architecture

1.1. Classes du dossier Codegen

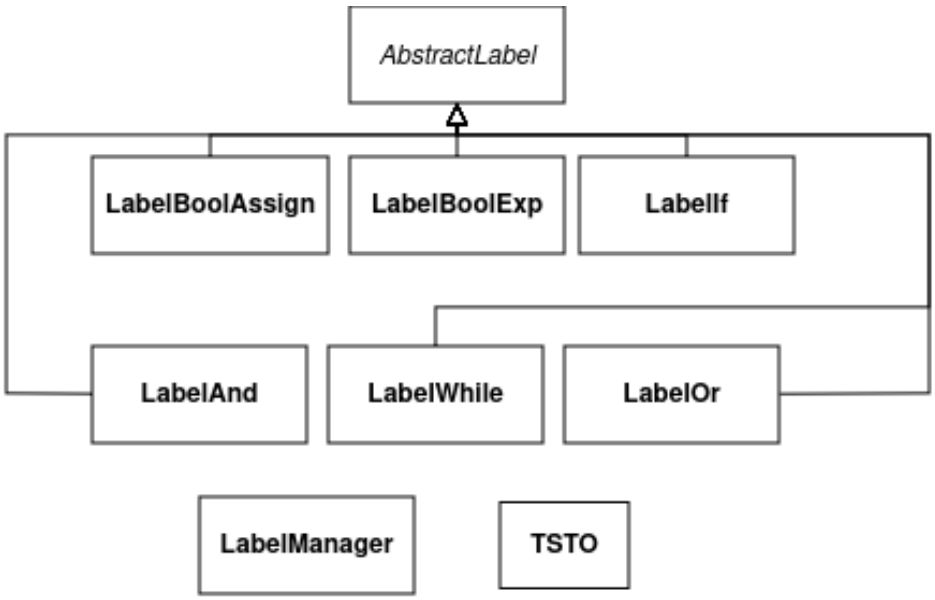

1.1.1. Classes d'erreurs

Cette ensemble de classes permet de gérer les erreurs et de générer les instructions assembleurs permettant de détecter ces erreurs.

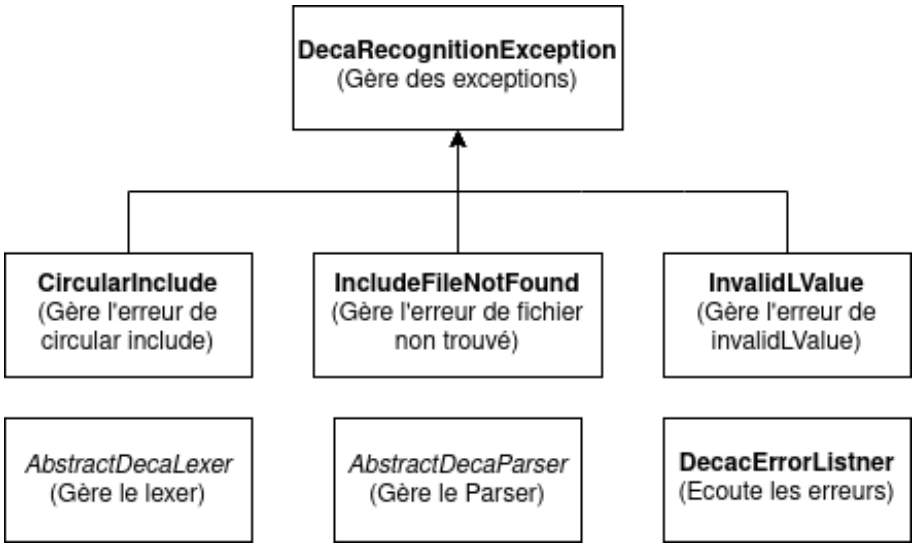

1.1.2. Classes de Labels

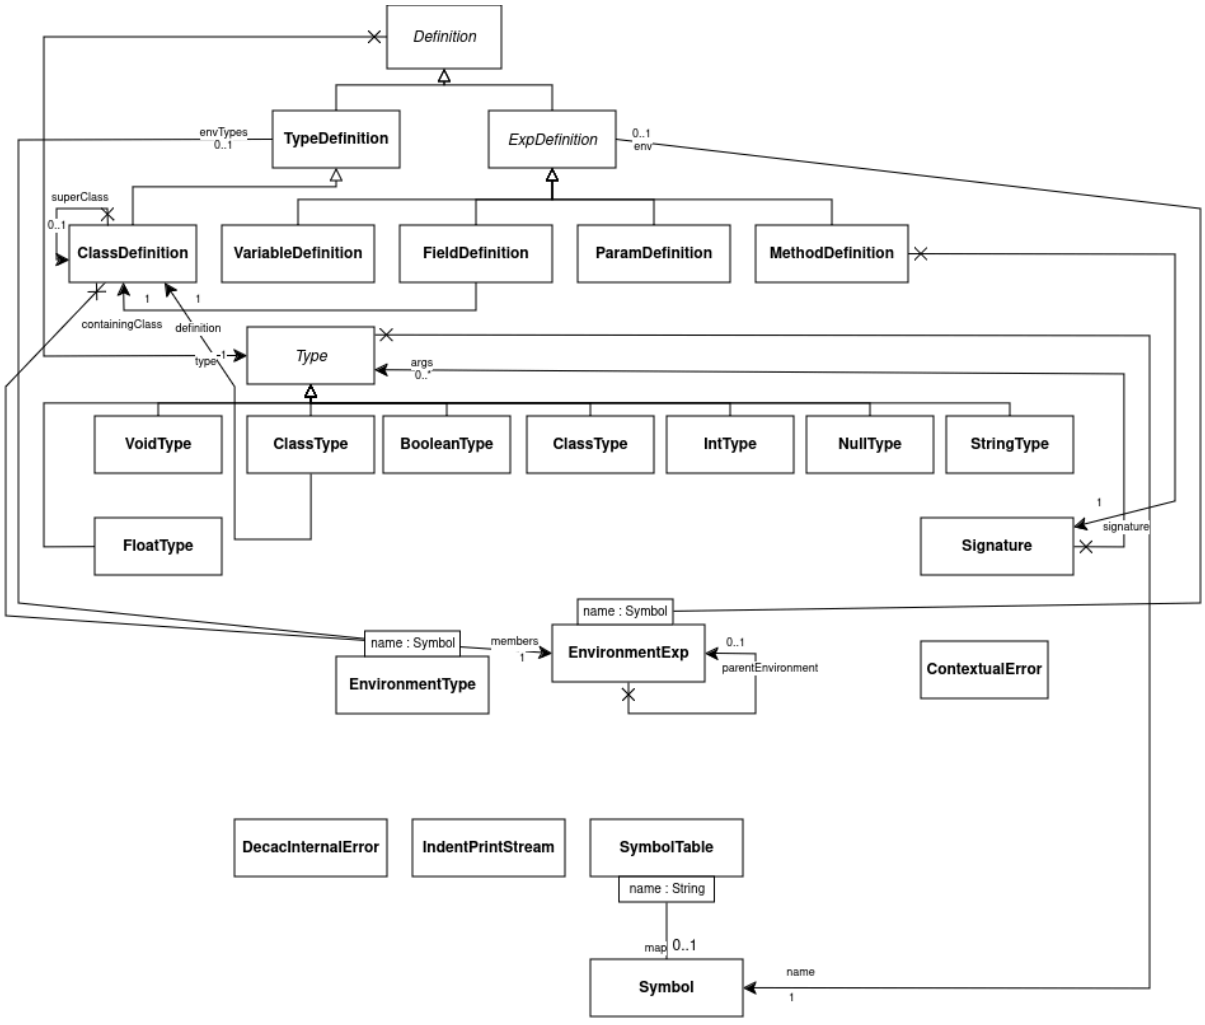

Cette ensemble de classes permet de gérer les labels afin de conserver l'unicité de la manière la plus simple possible.

1.2. Classes du dossier Syntax

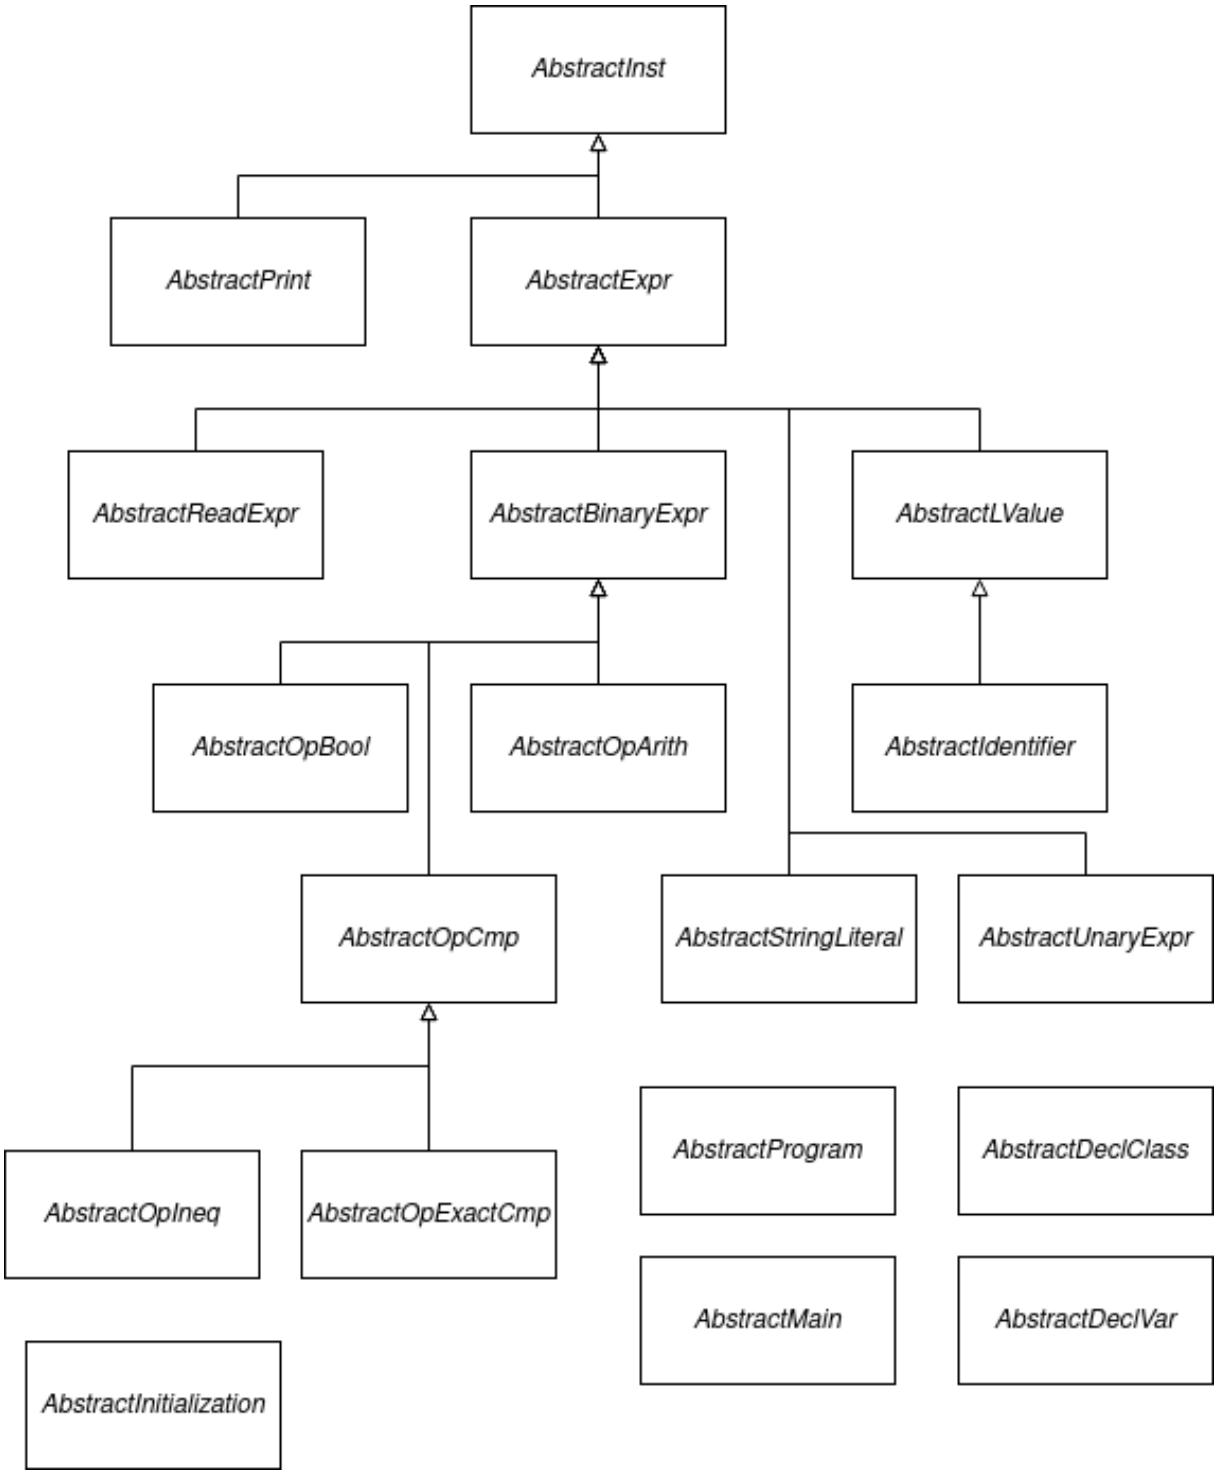

1.3. Classes du dossier Tools et Context

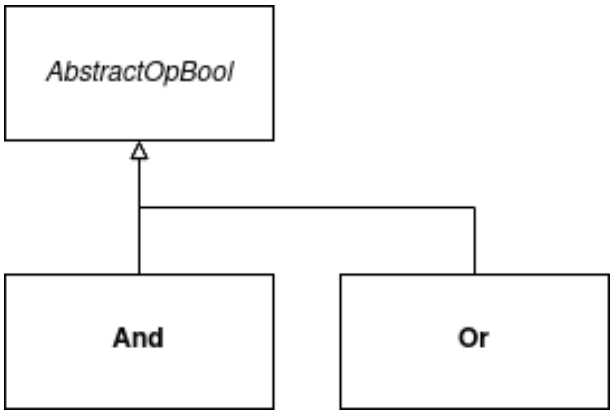

1.4. Classes du dossier Tree

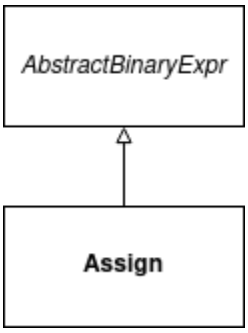

1.4.1. Abstract class (Les racines extends tree)

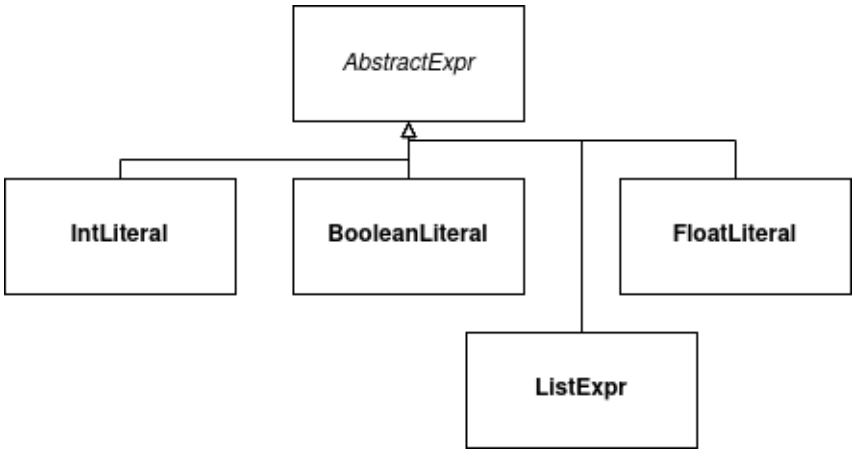

1.4.2. OpBool

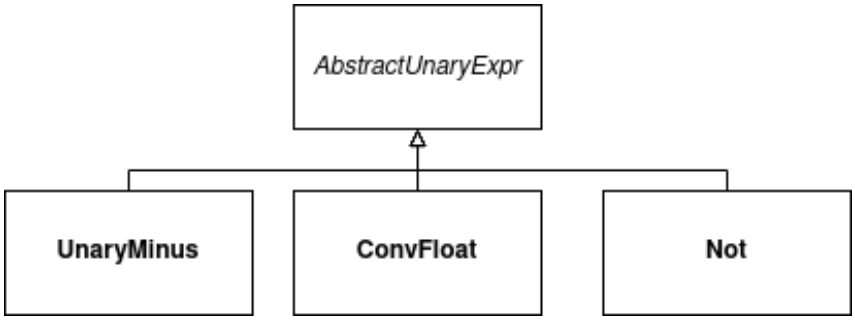

1.4.3. BinaryExpr

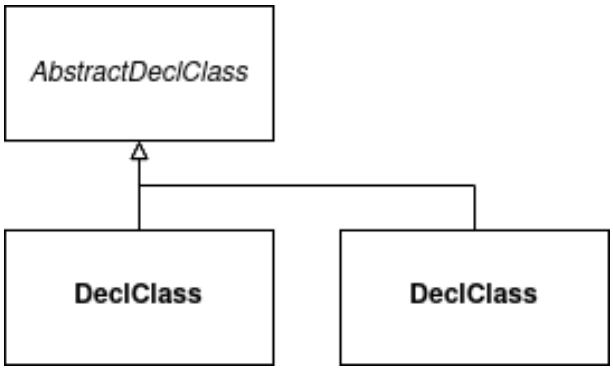

1.4.4. Expr

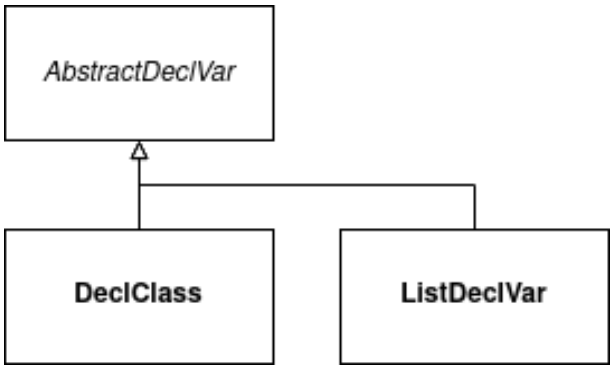

1.4.5. UnaryExpr

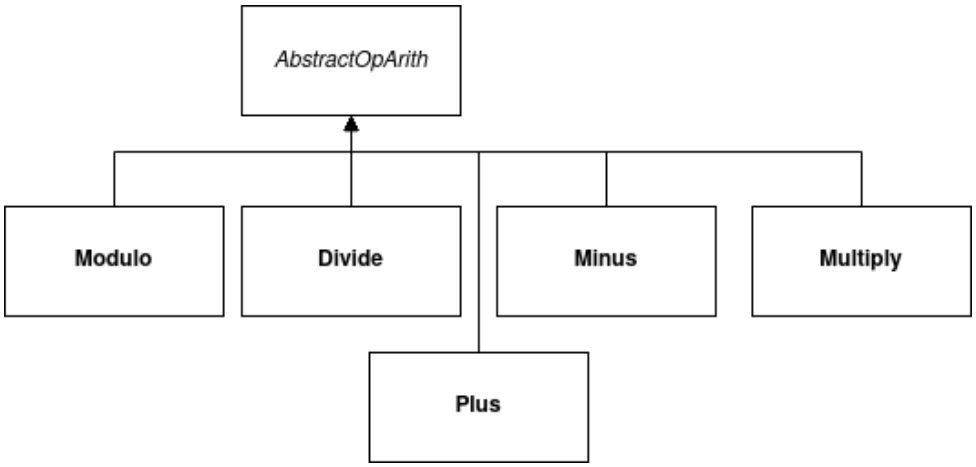

1.4.6. DeclClass

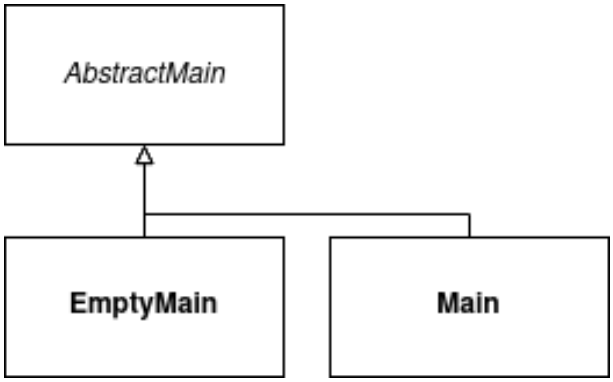

1.4.7. DeclVar

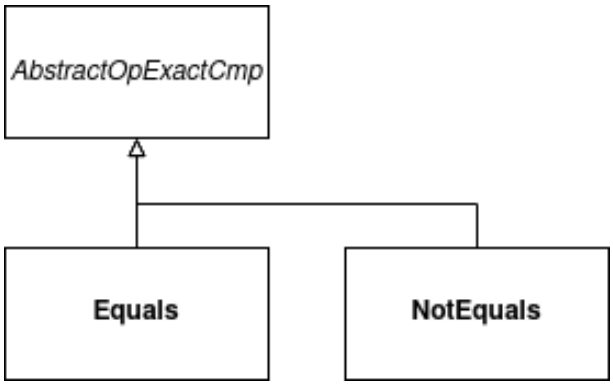

1.4.8. OpArith

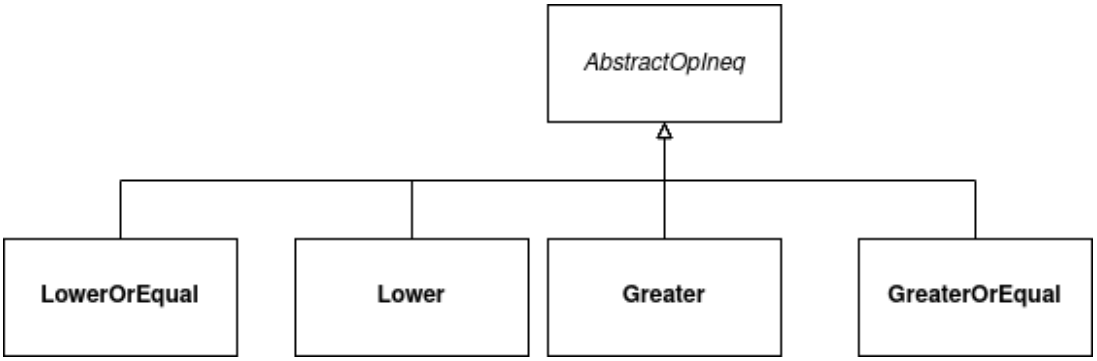

1.4.9. Main

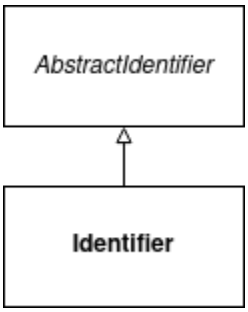

1.4.10. OpExactCmp

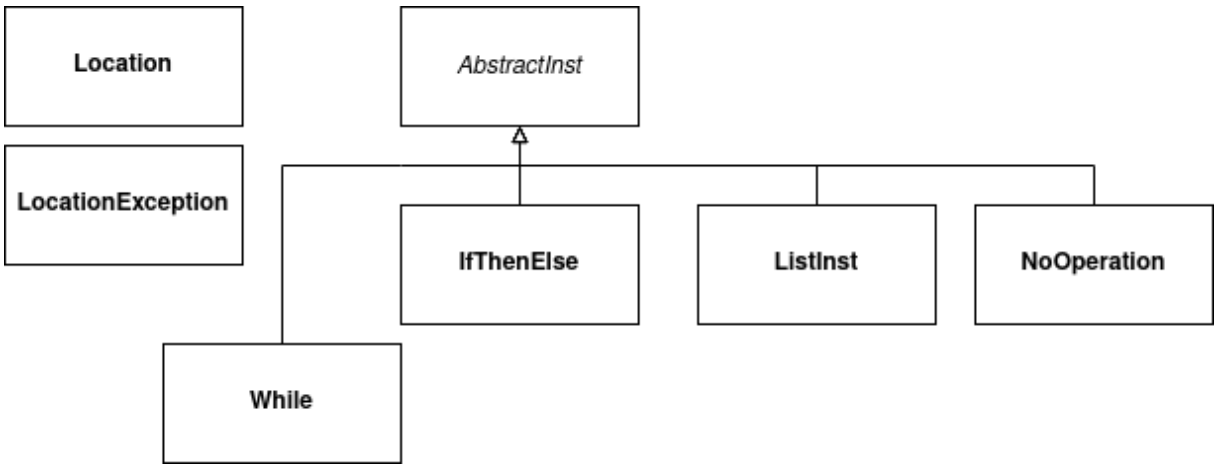

1.4.11. OpIneq

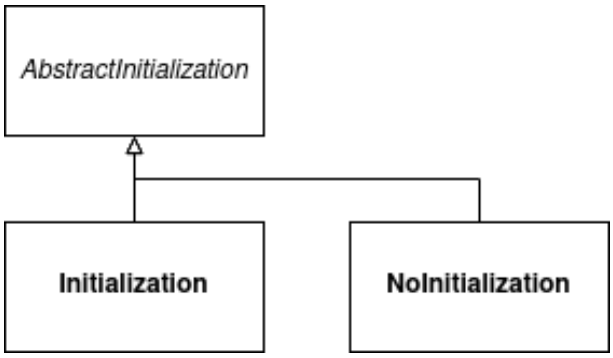

1.4.12. Identifier

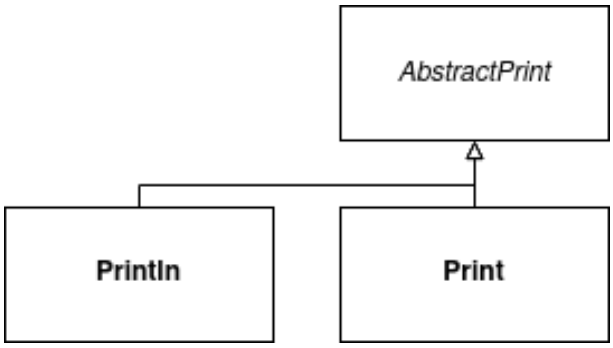

1.4.13. Inst and Location

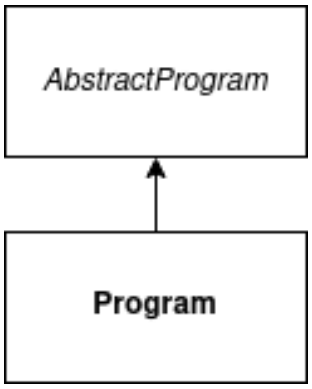

1.4.14. Initialization

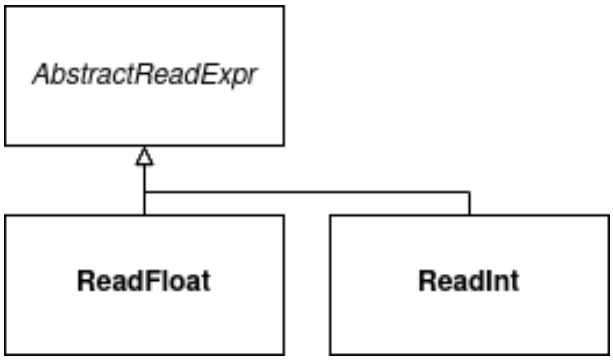

1.4.15. Print

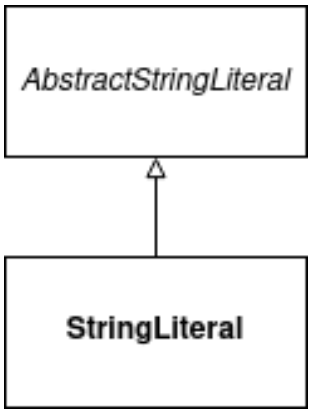

1.4.16. Program

1.4.17. ReadExpr

1.4.18. StringLiteral

2. Spécifications rajoutées

Pour l'instant aucune spécification n'est implémentée en plus de celles déjà spécifiées.

3. Algorithmes et structures de données rajoutés

Pour l'instant aucun algorithme ou structure n'est implémenté en plus de ceux déjà spécifiés.
